REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art as cited teaches the claimed process of removing metals with polymers with the same functionalities made by a different process. Although it would be prima facie reasonable to presume that the process was the same, using the same product made by a different process, applicants have shown in their declaration that the performance, i.e. capacity of ion exchangers made by the claimed process is unexpectedly improved. Products with identical functionalities were compared with the sole difference being the route through which the products were achieved, and the difference was shown to be dramatic. The claimed process is, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
